

ABOUT US

Dama Distributing is a locally owned and operated company. We are pioneering the development of biodegradable and compostable packaging for the cannabis and CBD industries. Here at Dama we care about the world we live in, and strive to make the world a better place for us all. With only 9% of all plastic recycled world wide, the plastic waste problem is growing out of control, That's why we have partnered with several manufacturers to bring child resistant, plant based plastic packaging to the cannabis industry. We believe that all of our clients deserve the highest level of service, and we are committed to providing just that.
